SKILLS

- NodeJs
- ReactJs
- Javascript
- NGINX
- AWS
- PostgresSQL

First, solve the problem. Then, write the code.

EDUCATION

MAHARSHI DAYANAND UNIVERSITY

*Bachelors in Technology
2013-2017*

CERTIFICATIONS

- Docker Mastery: with Kubernetes +Swarm from a Docker Captain

- Microservices with Node JS and React

RELEVANT EXPERIENCE

Sr. Specialist- Full Stack

Clik.ai | April 2021 - present

- Used, Node, React, PostgreSQL, Nginx, Elastic search, Kibana, Log stash, AWS for cloud, Bitbucket for version controlling, JIRA for bug tracking and sprint planning, and Bitbucket pipeline for CI
- Implemented various login strategies (email, social, SSO/SAML) to increase user adaptability
- Implement testing frameworks (Jest/Cypress) to ensure bug free deployment
- Implement linters/prettier to find and fix problems in JavaScript code

Specialist- Full Stack

Clik.ai | December 2018 - April 2021

- Trained junior developers
- Worked closely with ML team to implemented ML in application
- Redesigned APIs to make them paginated to filter across millions of records in milliseconds.
- Written modular, testable, highly maintainable code
- Containerized application in docker
- Regularly contributed and reviewed code of colleagues

Node.js Developer

Fluper LTD. | May 2018 - December 2018

- Trained junior developers
- Worked on multiple projects in various domains
- Worked on various Nodejs frameworks like NestJs, ExpressJs.
- Worked on various third party libraries like onfido, stripe, google maps, twillio, sendgrid, etc.
- Integrated socket.io for social networking apps.
- Worked on Angular 7 to create admin panels.
- Used Mongodb as database.
- Deployed projects on AWS/Google Console
- Used NGINX as reverse proxy for nodejs and angular applications
- Did domain mapping, installed SSL
- Did web scrapping

Developer

FlexiEle | March 2017 - May 2018

- Worked on SQL, NodeJs, ExpressJs and ReactJs
